

AppAssure Backup & Replication

AppAssure®
#1 BACKUP AND REPLICATION TO YOUR CLOUD

AT A GLANCE

AppAssure backup and replication software offers UNIFIED backup and replication for your virtual, physical or to YOUR cloud environment, which can be your servers or datacenter, or an offsite storage of your choosing.

3 NEW TECHNOLOGIES

- 1 LIVE RECOVERY™**
Instant recovery - Near-zero RTO, 5 minute RPO
- 2 ASSURED RECOVERY™**
Recovery verification - 100% Reliability
- 3 UNIVERSAL RECOVERY™**
Anywhere to VM or server, with application-item recovery and file-level recovery

"I've been doing tech for over 20 years. The way AppAssure performs exceeds the promises made in ad copy. This is one of the easiest products I've used. Seriously – it's that good."

-- John Grimes
Network/System/Windows Administrator
for EFG Companies

WHAT IS APPASSURE BACKUP AND REPLICATION SOFTWARE?

AppAssure is the world's fastest backup and replication software for any virtual, physical or cloud environment. Used by more than 5,000 companies in 52 countries, AppAssure is the fastest way to recover from any server failure – minutes and seconds, not days and hours.

HOW IS APPASSURE DIFFERENT?

LIVE RECOVERY™: Instant Recovery

Restore your entire server from your backup with an RTO of seconds and an RPO of minutes with full user access! Resume the use of the server directly from the backup file without waiting to extract the full backup or waiting for it to completely restore to production storage. Supports both physical and virtual servers and allows to resume in minutes, not hours – the fastest instant recovery on the market that works for both virtual and physical servers.

ASSURED RECOVERY™: 100% Reliable Recovery

Assure 100% reliability of the recovery of your backup file with AppAssure's recovery verification technology. Automatically test and verify your backup file integrity and assure the recoverability of the backup file itself PLUS proactive health check and corruption detection of the database applications in the backup archive file to ensure they are recoverable.

UNIVERSAL RECOVERY™: To any VM or Server

AppAssure was built from the ground up for virtual and physical environments, enabling the absolute fastest recovery possible – minutes, not hours or days, with near zero RPO. AppAssure provides full bare metal recovery to dissimilar hardware and VM servers, as well as granularly recover in seconds of individual objects, applications, files or messages from your backup in seconds.

What is *my* cloud?

AppAssure recovers to *your* cloud – whether that's your server room, your secondary location, hosted data center or public cloud. AppAssure also offers easy and affordable offsite backup. Whatever your cloud strategy, AppAssure can backup your servers to it, and recover from it faster than any other solution.

KEY FEATURES AND COMPONENTS

FULL ACCESS DURING RECOVERIES

AppAssure's unique block-based backup and recovery technology enables full user access to target servers during the recovery process, immediately. Requested blocks are restored on-demand for seamless recovery and near-zero RTO.

CONTINUOUSLY UPDATED VIRTUAL STANDBY

AppAssure continuously updates VMware and Microsoft Hyper-V virtual machines for a full virtual clone of your production machines, whether physical or virtual.

ONE BASE, INCREMENTAL FOREVER SNAPSHOTS

Eliminate backup windows completely – AppAssure takes a single base image and incremental snapshots forever. Older snaps roll into the base image.

COMPLETE APPLICATION PROTECTION

Unlike legacy backup products, AppAssure images the entire server, protecting the entire application – not just the files.

DEDUPLICATION AND COMPRESSION

AppAssure uses up to 80% less storage than legacy backup products through integrated deduplication and compression, also optimizing backups for WAN replication.

HARDWARE AGNOSTIC

AppAssure is a backup and replication software solution that doesn't require additional capital investment in storage hardware. Any Windows storage can be used as the local or cloud backup snapshot repository.

Supported Systems and Environments

VMware® vSphere™

- vSphere 5.0 and 4.x
- VMware Infrastructure 3.x (VI3)

Hosts:

- ESX 4.x and 3.x
- ESXi 5.0, 4.x, and 3.x

Microsoft Hyper-V Infrastructure

- Windows Server Hyper-V 2008 R2
- Microsoft Hyper-V Server 2008 R2 (Free)

Microsoft Windows Server & Applications

- **Windows Server:** 2008 R2, 2008, 2003
- **Windows Server:** 2011, 2008, 2003
- **Windows SBS:** 2011, 2008, 2003
- **Microsoft Exchange:** Exchange 2010, 2007, 2003
- **Microsoft SQL Server:** 2012 RCO, 2008, 2005, 2003
- **Microsoft SharePoint:** 2010, MOSS 2007, WSS 3.0
